RASANAI · TAMIL FOR TASTE, THE ART OF APPRECIATING

RasanAI is creative direction for whole films, made with Claude. You make five calls, from the brief to the final cut. RasanAI directs the craft in between and shows every decision it makes. The name is Tamil: rasanai, the taste that knows why something is good.

01

Taste over templates

Every film gets its own look, researched and blended for that film. Nothing should read as a preset.

02

The product is the hero

Real screens, real uses, a plain true story. No clever metaphor standing in for the thing itself.

03

Show the decisions

Every craft call is visible and explainable. Confidence comes from showing the work.

04

Calm tools, bold films

The interface stays quiet so the film can be loud. One loud action per screen.

Voice & tone

RasanAI talks like a calm, senior member of the crew: it tells you what it decided, why, and what you can change.

WE ARE

Plain
Short words, one idea per sentence.

Specific
Numbers, names and real examples over adjectives.

Warm
Speak to one person, as a collaborator.

Confident
Say what was decided and why. No hedging.

WE AVOID

Hype
“Revolutionary”, “magic”, “unleash”.

Jargon
Model names and internals the user never chose.

Exclamation marks
Excitement belongs in the film, not the copy.

Blame
Errors say what happened and the next step.

REWRITES

× Unleash the magic of AI-powered video!

Pick a script. Pick a look. RasanAI directs the rest.

× Oops! Something went wrong :(

The render stopped at scene 4: the font file is missing. Add it and resume.

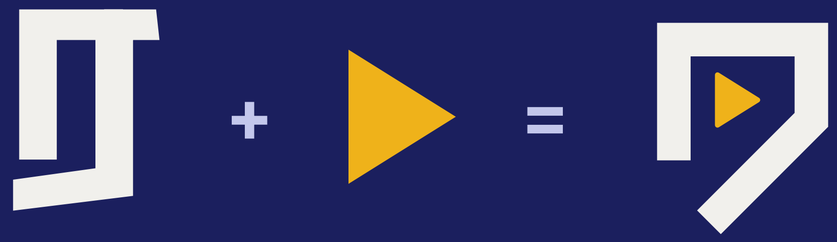

× Our cutting-edge engine optimises your content.

Three scripts, each built from what your product really does.

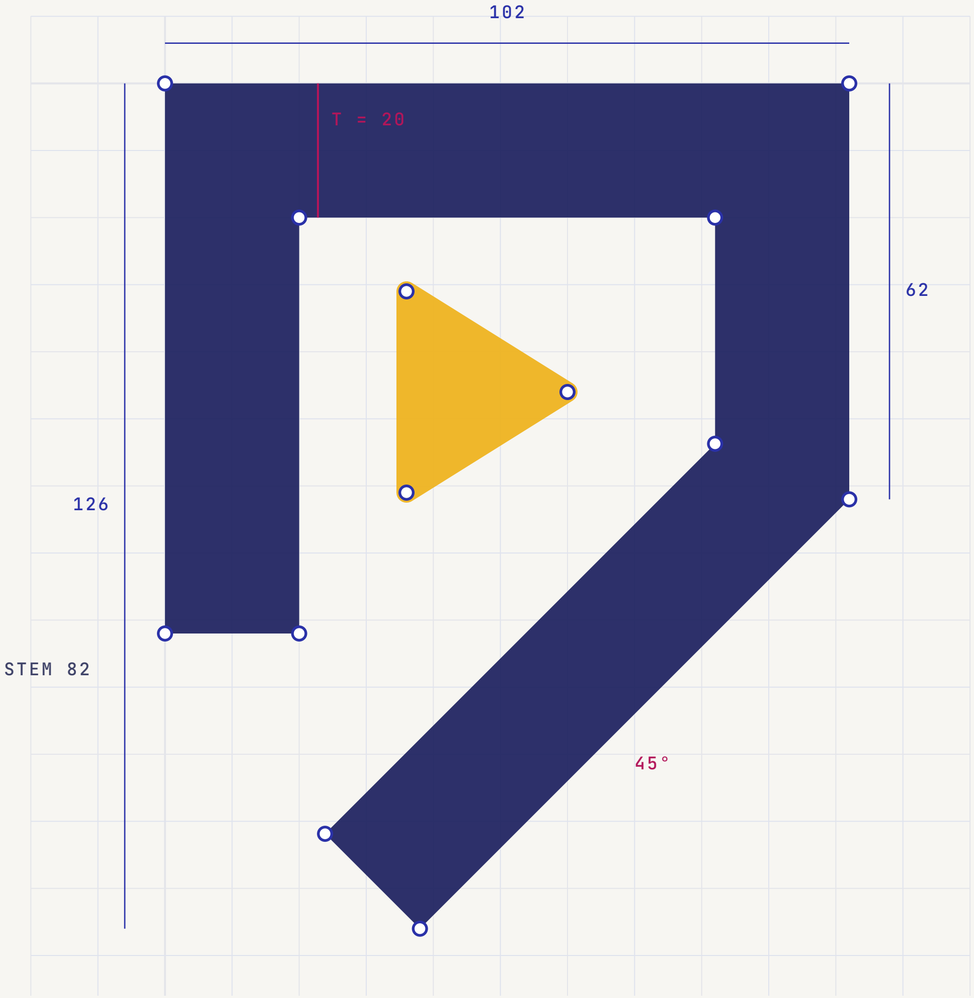

The mark

The mark is the Tamil letter ra, the first letter of rasanai, drawn as one heavy stroke. A play triangle sits in its counter: taste, set in motion. It stands alone wherever the name is already present: app icon, favicon, avatar, end card.

TAMIL RA PLAY RASANAI

Construction

The mark is built on a 102 × 126 unit grid from one stroke weight, T. Every measure in the logo system is a multiple of T, so clear space and spacing scale with it.

BOUNDING BOX	102 × 126 units
STROKE T	20 units, every stroke
STEM	82 units, also the wordmark's cap height
KICK	45°, squared off at (38, 126)
COUNTER	62 × 62, from (20, 20) to (82, 82)
PLAY	(36, 31) (60, 46) (36, 61), 3-unit round join
LOCKUP GAP	T, between mark and wordmark

TAMIL WORDMARK

Clear space & minimum size

Keep a margin of 2T (twice the mark's stroke) clear on every side. In a line with other content, centre the wordmark's cap height on the line: the kick hangs below like a descender.

RADII

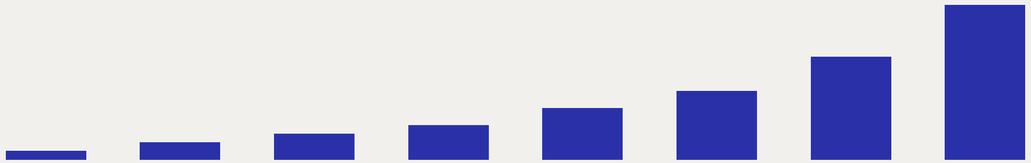

6 PILLS — 8 BUTTONS — 12 CARDS — 22% APP MARK

CARDS

REST — HOVER — SELECTED

SPACING

A 4-point base. Card padding 16, section gaps 24 to 32, page margins 72 on the site.

Motion

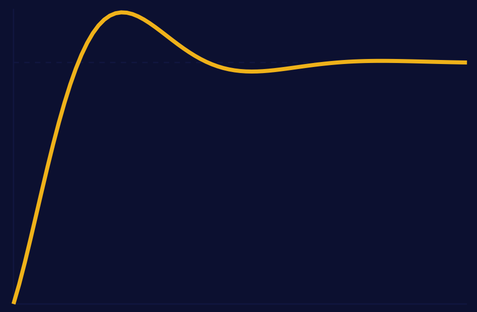

RasanAI makes films, so its own motion is restrained and exact: every move has a reason, and the interface never competes with the work.

01

One move per beat

Each beat gets one primary motion. Secondary motion supports it, never competes.

02

Springs, not timers

UI springs: response 0.30 s, damping 0.86. Interruptible and physical.

03

Fast feedback

Hover and press: 120 ms ease-out. Cards raise in 180 ms. Never animate text.

04

Respect Reduce Motion

With Reduce Motion on, cross-fade or cut. Nothing pulses, nothing slides.

LOGO STING · THE STROKE OF RA DRAWS IN, THE PLAY TRIANGLE SPRINGS INTO THE COUNTER, HOLD ONE BEAT.

Meet the crew

RasanAI makes films with a crew of 32 agents. Seven characters give them faces: Ra runs the set, and one crew member brings you each of your five calls. Mala joins when you bring footage.

TARA KAVI CHITRA RA LAYA RASIKA MALA

MASCOT · RUNS THE SET

EVERY CALL: HANDS YOU EACH ONE

Ra

The sound “ra”, the first syllable of RasanAI.

Warm, sure and unhurried. Ra is the face of RasanAI's Director: it greets you, runs the set, introduces the crew and hands you each call. You make the calls; Ra runs the set.

COLOUR	Turmeric #EFB21A
SHAPE	Plump gumdrop, the biggest of the crew
PROP	Black flat director's cap; a clapperboard held in both hands
FACE & POSE	Steady eyes, soft brows; stands square, ready to call action
TEAM	The Director, the main Claude session that talks to you

IN THE APP

- **Ra** · three scripts are ready: pick one
- **Ra** · the film is ready for your review

SCOUT · RESEARCH

CALL 1: CONFIRM THE BRIEF

Tara

Star; the guide star travellers steer by.

Curious and quick, always looking. Tara reads your product, your screens and the films like it before anything is written, and brings back what is true.

COLOUR	RasanAI Blue #2A31A8
SHAPE	Small sphere, the smallest of the crew
PROP	A hands-free brass scout's eyepiece strapped over one eye
FACE & POSE	One eye to the eyepiece, leaning in
TEAM	7: research-lead, product, screens, local scout, precedent, design and brand researchers

IN THE APP

- **Tara** · found 14 product screens
- **Tara** · reading 3 launch films like yours

WRITER · SCRIPTS

CALL 2: PICK A SCRIPT

Kavi

Poet.

Thoughtful, a little dreamy, precise with words. Kavi turns what Tara found into three different scripts, each built from what your product really does.

COLOUR	Indigo #1B1F5E
SHAPE	Tall rounded block, like a notebook standing up
PROP	Round brass glasses, a short beard, a big yellow pencil
FACE & POSE	Looking up, considering; the pencil held like a staff
TEAM	6: treatment, script and visual writers, script editor, concept and structure critics

IN THE APP

- **Kavi** · drafting script 2 of 3
- **Kavi** · cut the opening to 4 seconds

ART DIRECTOR · LOOKS

CALL 3: PICK A LOOK

Chitra

Picture, painting.

Bold, decisive and stylish. Chitra researches and blends three looks for your story, each a full design system, and draws every one on your film's first line.

COLOUR	Silk #B3165A
SHAPE	Soft drop with a swept brush-stroke crest
PROP	A fan of paint swatches; long lashes
FACE & POSE	Chin up, swatches fanned, ready to argue for a look
TEAM	8: art director, styleframe, frame and design-system designers, frame and A/B jurors, brand kit, brand film

IN THE APP

- **Chitra** · blending three looks
- **Chitra** · Look B uses your brand's own type

MOTION DIRECTOR · MOVES AND BUILD

CALL 4: NOTES ON THE ANIMATIC

Laya

Tempo and rhythm in Indian music.

Rhythmic, energetic, joyful. Laya invents the moves, times every cut to the music and builds the film, scene by scene.

COLOUR	Leaf #1E5A3C
SHAPE	Bean floating mid-move, a sprout curl on top
PROP	Brass headphones with a waveform on the cup
FACE & POSE	Always off the ground, leaning into the beat
TEAM	6: motion director, move inventor, sketcher and juror, film builder, scene animators

IN THE APP

- **Laya** · timing the moves to the music
- **Laya** · building scene 5 of 8

CRITIC · TASTE

CALL 5: REVIEW THE FINAL

Rasika

A connoisseur: one who truly appreciates.

Discerning, kind but exacting. Rasika checks every scene against the brief, the look and the craft bar, and sends back anything that isn't ready before you see it.

COLOUR	Ink 2 #3F4368
SHAPE	Low hooded dome with a cream face window
PROP	A brass loupe held to one eye
FACE & POSE	One brow raised; still and upright
TEAM	2: critic, retrospective

IN THE APP

- **Rasika** · sent scene 4 back: the title overlaps the logo
- **Rasika** · passed all 8 scenes

EDITOR · FOOTAGE REELS

ONLY WHEN YOU BRING FOOTAGE

Mala

Garland.

Calm, patient, good at putting things in order. Mala logs your clips, picks the selects and strings them into a reel, with motion cards between them.

COLOUR	Mist #DFE3EE
SHAPE	Round body with a top-knot bun
PROP	A 35 mm film strip wrapped around body and bun
FACE & POSE	Settled and steady; the strip loops like a garland
TEAM	3: footage logger, selects producer, footage writer

IN THE APP

- **Mala** · logged 38 clips, 9 selects
- **Mala** · cutting the reel to the chorus

Crew rules

Do

- Put Ra first; the crew stand at about 70% of Ra's height.
- Keep each character to its own colour, shape and one prop; hands are plain nubs.
- Use the clay renders for marketing and flat versions in the app.
- Write status lines from what the agents really did.
- Keep Reduce Motion: idle loops stop, changes cross-fade.

Don't

- Draw them from the logo, or use them in place of it.
- Swap colours or props between characters, or add new ones.
- Give them big mouths, outfits or text on their bodies.
- Put them inside someone's film unless they ask.
- Turn status lines into cheerleading.

Where they appear

- Progress view: who is working, one live line each
- The five calls: each introduced by its crew member
- Decisions drawer: every decision signed
- Empty states, onboarding and errors: Ra explains
- Site, launch films and social
- Optional end credit: “Directed by you · Crew: RasanAI”

PALETTE

- **Tara** #2A31A8
- **Kavi** #1B1F5E
- **Chitra** #B3165A
- **Ra** #EFB21A
- **Laya** #1E5A3C
- **Rasika** #3F4368
- **Mala** #DFE3EE
